MANIKANTA YARRAMNEEDI

Backend Developer | Python | FastAPI | PostgreSQL

Hyderabad, India | Open to Relocation

GitHub: github.com/Maniprogramer | Portfolio: portfolio-ochre-xi-44.vercel.app

Email: manikanta.yarramneedi.home@gmail.com

PROFESSIONAL SUMMARY

Backend Developer with hands-on experience building scalable REST APIs using Python, FastAPI, and PostgreSQL. Proven ability to design CRUD-based systems, optimize API performance by 25%, and implement secure authentication (JWT, OAuth2). Skilled in async programming, database optimization, error handling, and deploying containerized applications using Docker.

TECHNICAL SKILLS

Languages: Python, SQL

Backend: FastAPI, REST API Development, API Design, CRUD Operations, Async Programming

Databases: PostgreSQL, SQLAlchemy, SQLite, Database Optimization

Security: OAuth2, JWT, Bcrypt

Tools: Git, Docker, Postman, Linux, Pytest

Cloud: AWS (Basics), CI/CD Concepts

PROFESSIONAL EXPERIENCE

Backend Developer – UST Global (Mar 2024 – Present)

• Developed REST APIs using Python and FastAPI

• Implemented CRUD operations and API design principles

• Built async APIs improving performance

• Implemented JWT and OAuth2 authentication

• Optimized PostgreSQL queries and indexing

• Handled error validation and exception handling

PROJECTS

Scalable E-commerce API

• Built CRUD-based APIs with filtering and pagination (25% faster)

• Implemented authentication and Docker deployment

• Added validation and error handling

Secure Auth API

• Built secure auth system using OAuth2 and JWT

• Implemented password hashing and validation

EDUCATION

B.Sc. in Artificial Intelligence and Robotics — 2023
